PROFESSIONAL SUMMARY

I specialize in **Full Stack Development** with over **3 years** of experience in developing creative and optimized web applications which are robust and highly scalable in nature. I have worked with both frontend and backend frameworks like **MERN**. I have worked with python oriented frameworks like FastAPI and can develop applications based on the framework. I also have a strong sense of attention to detail when it comes to debugging and writing developer-friendly code. Furthermore, I have hands-on experience in Cloud computing services like **AWS**.

SKILLS

Technical Skills:

Programming Languages: C, C++, JavaScript, TypeScript(TS), Python.

Frameworks & Cloud: ReactJS, NextJS, Express, NodeJS, AWS, Microservices.

Databases: MongoDB, MySQL, DynamoDB.

Blockchain: Web3/Ethers, Smart Contracts, Wallet Integrations.

Version Control & DevOps: GitHub, GitLab, CI/CD, Docker.

Soft Skills: Effective Communication, Efficient time management, Problem Solving, Critical Thinking Ownership, Delegation, Asset Management.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Decrypt Block Mohali, Punjab

04/2022 - Present

- Worked actively with diversified teams to develop user-friendly and functional web applications.
- Worked with Integration of frontend and backend code to build effective and optimized applications
- Fixing bugs and managing cluttered code to ensure seamless project delivery.
- Worked on a diverse range of websites across various categories.
- Delegating specific tasks and projects to specific individuals.
- Taking part in daily scrums and stand ups.

Web Developer

People Tech Group, Hyderabad

07/2020 - 05/2021

- Actively developing apps in agile methodologies, also participating in sprint frameworks.
- Developed frontend web apps– mainly prioritizing user accessibility and effective design for an easy experience of a wide range of users.

PROJECTS

Digital Arms [Link](#)

- Worked in Development and maintenance of NFT based marketplace, assisted in creation of a seamless digital asset trading platform.
- Was Responsible for the implementation of blockchain technology to ensure and verify authenticity and ownership of NFTs.
- Designed intuitive user interfaces for seamless asset management and enhanced user experience.
- Planned and Designed intuitive UI/UX designs for effective asset management and user experience.

AIAC [Link](#)

- Designed Multiple panels for a platform especially enabling users to collaborate and research.
- Optimized performance by using **React.js optimization strategies**.
- Handled the backend component using AWS cloud services mainly for user authentication. Also used DynamoDB for database management.

PlanA [Link](#)

- Optimized and fine-tuned the application performance by **25%** using **React.js optimization strategies**.
- Worked with Integration of third-party services to improve platform functionality.
- Enhanced task assignment, optimized notification efficiency for a better user experience.

EDUCATION

Bachelor of Technology in Computer Science Engineering

Ajay Kumar Garg Engineering College, U.P
CGPA - 8.68

2017-2021
